

PERMISSION TO PHOTOCOPY JOURNAL PAPERS

Permission to photocopy for personal or internal reference beyond the limits in Sections 107 and 108 of the U.S. Copyright Law is granted by the American Society of Civil Engineers for libraries and other users registered with the Copyright Clearance Center, 21 Congress Street, Salem, Mass. 01970, provided the appropriate fee is paid to the CCC for all articles bearing the CCC code. Requests for special permission or bulk copying should be addressed to the Manager of Technical and Professional Publications, American Society of Civil Engineers.

CONTENTS

Wagner Hypothesis in Beam and Column Theory
by Morris Ojalve 649

Transient Response of Fluid-Coupled Coaxial Shells
by Ulrich W. Stüssi and Peter Jemelka 669

Plastic Models in Turbomachinery Foundation Studies
by Ronald L. Bannister and Ish K. Aneja 679

TECHNICAL NOTES

Proc. Paper 16412

Indentation of Anisotropic Halfspace by Yielding Circular Foundation
by George Gazetas 695

Bending of Circular Thin-Walled Cylinder with Creep
by John H. Lau 704

The Journal of the Engineering Mechanics Division (ISSN 0044-7951) is published bimonthly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. INFORMATION RETRIEVAL

The key words, abstract, and reference “cards” for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user’s file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
