This Journal is published quarterly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$3.00. Nonmember subscriptions available; prices obtainable on request. CO, PO, EI, SU, UP.

The Society is not responsible for any statement made or opinion expressed in its publications.

DISCUSSION

Proc. Paper 10563

Railroad Crossings at Berwick Bay, by Thomas E. Petermann (July, 1973).
errata 189

Field Quality Control Test for Wetting Brick in Masonry Construction,^a
by James T. Houston and Clayford T. Grimm (July, 1973).
by Russell H. Brown and John C. Grogan 189

Basic Construction Principles in Higher Latitudes,^a by Shu-t'ien Li
(Mar., 1974).
by Altaf Hussain 192

TECHNICAL NOTES

Proc. Paper 10570

Energy Conservation, Noise, and Vibration Control in Construction of Floating Offshore Power Plants
by James A. O'Kon 195

Role of Specifications in Foundation Construction
by Walter S. Douglas 198

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
