

PERMISSION TO PHOTOCOPY JOURNAL PAPERS

Permission to photocopy for personal or internal reference beyond the limits in Sections 107 and 108 of the U.S. Copyright Law is granted by the American Society of Civil Engineers for libraries and other users registered with the Copyright Clearance Center, 21 Congress Street, Salem, Mass. 01970, provided the appropriate fee is paid to the CCC for all articles bearing the CCC code. Requests for special permission or bulk copying should be addressed to the Manager of Technical and Professional Publications, American Society of Civil Engineers.

CONTENTS

Undersea Suspended Cable Structures
by William J. Nordell and Dallas J. Meggitt 1025

Deterministic Fluid Forces on Structures: A Review
by John W. Leonard, G. J. Garrison, and Robert T. Hudspeth 1041

Bottom-Supported Concrete Platforms: Overview
by William J. Graff and Wai F. Chen 1059

Fixed Pile-Supported Steel Offshore Platforms
by Peter W. Marshall 1083

Delphi Methods: Theory and Design Load Applications
by Ross B. Corotis, Raymond R. Fox, and John C. Harris 1095

Predicting Torsional Response of Thin-Walled Open RC Members
by Petar Krpan and Michael P. Collins 1107

Testing Thin-Walled Open RC Structure in Torsion
by Petar Krpan and Michael P. Collins 1129

This Journal is published monthly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$22.50. Nonmember subscriptions available; prices obtainable on request. Second-class postage paid at New York, N.Y. and at additional mailing offices. ST.

The Society is not responsible for any statement made or opinion expressed in its publications.

DISCUSSION

Proc. Paper 16284

Aerodynamic Response of Long H-Sections,^a by Frances J. Maher
and Larry E. Wittig (Jan., 1980).

by *Carl H. Gronquist* 1143

INFORMATION RETRIEVAL

The key words, abstract, and reference “cards” for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user’s file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
