

CONTENTS

Thermal Loading of Thin-Shell Concrete Cooling Towers <i>by Richard D. Larrabee, David P. Billington, and John F. Abel</i>	2367
Optimum Proportions for I-Shaped Beams <i>by Charles G. Schilling</i>	2385
Shear Strength of Post-Tensioned Daps in Prestressed Concrete Beams <i>by Ali A. Hamoudi and Michael K. S. Phang</i>	2403
Finite Element Analysis of Concrete Beams <i>by Chung-Hyun Nam and Charles G. Salmon</i>	2419
Steel Box-Girder Bridges—Ultimate Strength Considerations <i>by the Subcommittee on Ultimate Strength of Box Girders of the ASCE-AASHTO Task Committee on Flexural Members of the Committee on Metals of the Structural Division</i>	2433
Design of Steel Transmission Pole Structures <i>by the Task Committee on Steel Transmission Poles of the Committee on Analysis and Design of Structures of the Structural Division</i>	2449

This Journal is published monthly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$10.00. Nonmember subscriptions available; prices obtainable on request. Second-class postage paid at New York, N.Y. and at additional mailing offices. ST.

The Society is not responsible for any statement made or opinion expressed in its publications.

DISCUSSION

Proc. Paper 10977

Comparison of Approximate Linear Methods for Concrete Creep, by Zdenek P. Bazant and Leonard J. Najjar (Sept., 1973).
errata 2521

Incremental Finite Element Matrices,^a by Sundaramoorthy and David W. Murray (Dec., 1973. Prior Discussion: Sept., 1974).
by Carlos A. Felippa 2521

Shallow Spherical Shells under Apex Loads,^a by Isadore K. Silverman and John R. Mays (Jan., 1974. Prior Discussions: Nov., 1974).
by Kuo-Kuang Chen and David S. Fine 2523

Commentary on Orthotropic-Deck Bridge Specification,^a by the Task Committee on Orthotropic Plate Bridges of the Committee on Metals of the Structural Division (Jan., 1974).
by Roman Wolchuk and Ronald M. Mayrbaurl 2525

Aseismic Design of Staggered Truss Buildings, by Robert D. Hanson and Glen V. Berg (Jan., 1974).
errata 2526

Ultimate Strength of Concrete Box Girder Bridge,^a by Jack G. Bouwkamp, Alexander C. Scordelis, and S. Tanvir Wasti (Jan., 1974).
by Lennart G. Elfgren 2526

Decrease in Hurricane Winds After Landfall, by Joseph L. Goldman and Toshimitsu Ushijima (Jan., 1974).
errata 2527

Torsional Analysis of Box-Girder Suspension Bridges, by H. Max Irvine (Apr., 1974).
errata 2528

Torsional Strength of Prestressed Concrete Beams,^a by H. Roger Woodhead and Arthur E. McMullen (May, 1974).
by Himat T. Solanki 2529

Prestressed Beams in Torsion, Bending, and Shear,^a by Robert L. Henry and Paul Zia (May, 1974).
by Himat T. Solanki 2530

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.

Composite Steel-Concrete Construction,^a Report of the Subcommittee on the State-of-the-Art Survey of the Task Committee on Composite Construction of the Committee on Metals of the Structural Division (May, 1974).

by *Marvin A. Larson* 2532

TECHNICAL NOTES

Proc. Paper 10982

Survey of Research on Structural Connections

by *the Task Committee on Structural Connection of the Committee on Metals of the Structural Division* 2537

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
