

CONTENTS

Cavity Expansion in Sands with Curved Envelopes <i>by Mohsen M. Baligh</i>	1131
Evaluation of Resonant Column Test Devices <i>by George R. Skoglund, William F. Marcuson, III, and Robert W. Cunny</i>	1147
Nonlinear Behavior in Soil-Structure Interaction <i>by Eduardo Kausel, José M. Roësset, and John T. Christian</i>	1159
Dynamic Shear Moduli for Dry Sands <i>by Mehmet A. Sherif and Isao Ishibashi</i>	1171

TECHNICAL NOTES

Proc. Paper 12513

Stresses in Shallow Elliptical Tunnel <i>by Robert Mark</i>	1187
Relative Motion of Two Points during an Earthquake <i>by John T. Christian</i>	1191
Flow at Interface of Two Anisotropic Soil Zones <i>by Robin N. Chowdhury</i>	1195

This Journal is published monthly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$10.00. Nonmember subscriptions available; prices obtainable on request. Second-class postage paid at New York, N.Y. and at additional mailing offices. HY, GT.

The Society is not responsible for any statement made or opinion expressed in its publications.

DISCUSSION

Proc. Paper 12507

Mica Dam Embankment Stress Analysis, by Nigel A. Skermer (Mar., 1975. Prior Discussion: Apr., 1976).
closure 1201

Effect of Catalyst in Soil-Resin Stabilization, by Dalim K. Majumdar (June, 1975. Prior Discussion: May, 1976).
closure 1202

Elastoplastic Stress-Strain Theory for Cohesionless Soil,^a by Poul V. Lade and James M. Duncan (Oct., 1975. Prior Discussions: Mar., June, July, 1976).
by Michael J. Pender 1202

Strength of One Dimensionally Consolidated Clays,^a by Adel S. Saada and Gary F. Bianchini (Nov., 1975).
by Ravikumar Bhaskaran 1204

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
