TECHNICAL NOTES

Proc. Paper 12769

---

**Seepage Characteristics of Stable Channels**  
*by Mohammad Akram Gill* . . . . . 95

**Flow Factor Line Used in Storage Calculations**  
*by Alfred R. Pagan* . . . . . 100

---

DISCUSSION

Proc. Paper 12766

---

**Design of Drip Irrigation Main Lines**, by I-pai Wu (Dec., 1975. Prior Discussion: Sept., 1976).  
*closure* . . . . . 105

**Infiltration into Increasingly Permeable Soils,<sup>a</sup>** by Herman Bouwer (Mar., 1976).  
*by Mohammad Akram Gill* . . . . . 105

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

---

<sup>a</sup>Discussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent JOURNALS.
