

CONTENTS

Operation and Maintenance of Irrigation and Drainage Systems:

Section IV.—Maintenance

<i>by the Committee on Operation and Maintenance of Irrigation and Drainage Systems of the Irrigation and Drainage Division</i>	1
Intercontinental Comparison of Evaporation Estimates <i>by Robert D. Burman</i>	109
Quantitative Assessment of Changes in Urban Runoff <i>by Irina Cech and Karen Assaf</i>	119
Infiltration into Increasingly Permeable Soils <i>by Herman Bouwer</i>	127
Estimating Seepage Losses from Canal Systems <i>by Robert V. Worstell</i>	137
Evaluation of Nonuniformity in Irrigation and Yield <i>by Ivan Varlev</i>	149

DISCUSSION

Proc. Paper 11951

Determining Streamflows from Geomorphic Parameters,^a by John F. Orsborn (Dec., 1974. Prior errata: June, 1975).

by Robert T. Milhous 167

This Journal is published quarterly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$5.00. Nonmember subscriptions available; prices obtainable on request. Second-class postage paid at New York, N.Y. and at additional mailing offices. IR, WW.

The Society is not responsible for any statement made or opinion expressed in its publications.

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.

Solutions for Unconfined Non-Darcy Seepage,^a by Raymond E. Volker
(Mar., 1975).
by Hannes Lacher 169

2020 Hindsight: Another Fifty Years of Irrigation?^a by Daniel A.
Dreyfus (June, 1975).
by Zane Spiegel 171

TECHNICAL NOTES

Proc. Paper 11955

Hydraulic Representation of Flow Cross Sections
by Sun-Fu Shih and Robert L. Hamrick 175

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
