COMPUTER SIMULATION OF A BREAK-AWAY SIGN SUPPORT by Thomas C. Edwards	169

DISCUSSION
Proc. Paper 5542

PHILOSOPHY OF SERVICE LIFE IN CULVERT DESIGN, by Lester A. Herr (Mar., 1966. Prior Discussion: Oct., 1966, Apr., 1967). closure	189
HYDRAULIC EFFICIENCY IN CULVERT DESIGN, by Fred W. Blaisdell (Mar., 1966. Prior Discussion: Apr., 1967). closure	192
CEMENT-TREATED SUBBASE PRACTICE IN U. S. AND CANADA ^a , by Edward L. Kawala (Oct., 1966). by Philip P. Brown	194
INTERRELATION OF HIGHWAY AND RESERVOIR LOCATION ^a , by Rinard T. Lierboe, Jr. (Apr., 1967). by Richard L. Pool and William S. Gentry	195
FATIGUE CHARACTERISTICS OF FLEXIBLE PAVEMENT ^a , by Hyoungkey Hong (Apr., 1967). by Kenneth R. Peattie	196

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 x 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

^a Discussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
