Effect of Gradient on Jet Transport Runway Lengths, by Gale Ahlborn and Robert Horonjeff. (April, 1963. Prior discussion: None. Discussion closed.) by Milton Meisner . . . . .	53

INFORMATION RETRIEVAL

The key words, abstract and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 x 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.
