

CONTENTS

Local Unloading in Piecewise-Linear Plasticity <i>by Osvaldo De Donato and Giulio Maier</i>	383
Optimal Aseismic Design of Building and Equipment <i>by Shih-Chi Liu, M. R. Dougherty, and F. Neghabat</i>	395
Rigid Plastic Beam Model for Pipe Whip Analysis <i>by Martin A. Salmon and Vijay Verma</i>	415
Rectangular Finite Element for Field Problems <i>by Bruce W. Golley</i>	431
Dynamic Response of Membranes with Finite Elements <i>by Steven E. Benzley and Samuel W. Key</i>	447
Thick Plates on Elastic Foundations by Finite Elements <i>by Otto J. Svec</i>	461
Finite Element Analysis of Wave Diffraction by a Crack <i>by Zdeněk P. Bažant, John L. Glazik, and Jan D. Achenbach</i>	479
Dynamic Stiffness Matrices for Viscoelastic Half-Plane Foundations <i>by Anil K. Chopra, P. Chakrabarti, and Gautam Dasgupta</i>	497
Concrete Failure Related to Constituent Properties <i>by Rene B. Testa and Norris Stubbs</i>	515
Effect of Foundation Stiffness on Track Buckling <i>by Yehia M. El-Aini</i>	531

This Journal is published bimonthly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$7.00. Nonmember subscriptions available; prices obtainable on request. Second-class postage paid at New York, N.Y. and at additional mailing offices. EE, EM.

The Society is not responsible for any statement made or opinion expressed in its publications.

TECHNICAL NOTES

Proc. Paper 12168

Finite Deflection of Tapered Cantilevers <i>by Gangan Prathap and Tirupathi Kumara Varadan</i>	549
Vibration of Tapered Plates by Finite Strip Method <i>by Victor A. Pulmano and Radhey K. Gupta</i>	553
Transverse Bending of Laminated Anisotropic Plates <i>by Eric Reissner</i>	559
Reliability of Prismatic Bars in Tension <i>by Emilio Rosenblueth and Alfredo Careaga</i>	563
Stability of Generally Orthotropic Skew Plate <i>by R. S. Srinivasan and S. V. Ramachandran</i>	569

DISCUSSION

Proc. Paper 12162

Peak Distribution of Random Wave-Current Force , by Chi C. Tung (Oct., 1974. Prior Discussion: Oct., 1975). <i>closure</i>	575
Dual Failure Criterion for Plain Concrete , by Han-Chin Wu (Dec., 1974. Prior Discussion: Aug., Dec., 1975). <i>closure</i>	577
Statics of Suspended Cables , by H. Max Irvine (June, 1975). <i>errata</i>	579
Model Studies of Multicell Curved Box-Girder Bridges , ^a by Mohammad Aslam and William G. Godden (June, 1975). <i>by Sanivarapu V. Narasimham</i>	579
Turbulent Structure Near Smooth Boundary , ^a by Paul H. Blinco and Daryle B. Simons (June, 1975). <i>by Robert Gerard</i>	581

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.

Post-Buckling of Redundant Rectangular Beams,^a by Scott T. Woolcock and Nicholas S. Trahair (Aug., 1976). by <i>Ernest F. Masur</i>	585
Statics and Dynamics of Cable Trusses, by H. Max Irvine (Aug., 1975). by <i>Hugo Møllmann</i>	587
Saturated Sand as Inelastic Two-Phase Medium, by Zdeněk P. Bažant and Raymond J. Krizek (Aug., 1975). <i>errata</i>	589
Constitutive Relations for Concrete, by Andrie C. T. Chen and Wai-Fai Chen (Aug., 1975). <i>errata</i>	590

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
