

CONTENTS

Float Calibration in Integrated-Float Techniques <i>by Peter H. John, F. Allan Johnson, and Peter Sutcliffe</i>	1071
Hydrodynamics of Perched Mounds <i>by Richard R. Brock</i>	1083
Morphology of Cobble Streams in Small Watersheds <i>by Ruh-Ming Li, Daryl B. Simons, and Michael A. Stevens</i>	1101
Cost Optimization of Rural Water Systems <i>by Robert B. Robinson and Tom A. Austin</i>	1119

DISCUSSION

Proc. Paper 12280

Jet-Forced Circulation in Water-Supply Reservoirs , by Rodney J. Sobey and Stuart B. Savage (Dec., 1974. Prior Discussion: Sept., Dec., 1975). <i>closure</i>	1137
Sediment Inertia as Cause of River Antidunes , by Gary Parker (Feb., 1975. Prior Discussions: Dec., 1975, Jan., 1976). <i>closure</i>	1139
Seismic Response of Reservoir-Dam Systems , by E. Benjamin Wylie (Mar., 1975. Prior Discussions: Jan., 1976). <i>closure</i>	1141

This Journal is published monthly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$10.00. Nonmember subscriptions available; prices obtainable on request. Second-class postage paid at New York, N.Y. and at additional mailing offices. HY, GT.

The Society is not responsible for any statement made or opinion expressed in its publications.

Interaction of Multiple Jets with Ambient Current , by Ralph R. Boericke (Apr., 1975. Prior Discussions: Jan., 1976).	
<i>closure</i>	1142
Sparsity Oriented Analysis of Large Pipe Networks , by M. Chandrashekar and K. H. Stewart (Apr., 1975. Prior Discussions: Nov., 1975, Jan., 1976).	
<i>closure</i>	1143
Review of Models of Tidal Waters , ^a by Jon B. Hinwood and Ian G. Wallis (Nov., 1975. Prior Discussions: June, 1976).	
by <i>Michael B. Abbott</i>	1145

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
