

CONTENTS

Temperature and Missouri River Stages near Omaha <i>by Hsieh Wen Shen, Warren J. Mellema, and Alfred S. Harrison</i>	1
Stratification and Open Channel Flow <i>by Richard H. French</i>	21
Transverse Bed Slopes in Curved Alluvial Streams <i>by Claus Zimmermann and John F. Kennedy</i>	33
Effect of Channel Meanders on Flood Stage in Valley <i>by Clifford D. Smith</i>	49
Design under Stochastic Groundwater Fluctuation <i>by István Bogárdi and Lucien Duckstein</i>	59
Dispersive Sources in Uniform Ground-Water Flow <i>by Bruce Hunt</i>	75
Streamflow Characteristics from Channel Size <i>by Henry C. Riggs</i>	87

TECHNICAL NOTES

Proc. Paper 13456

Performance of Model Storm Sewer Junctions <i>by Ron D. Townsend and Jan R. Prins</i>	99
---	----

This Journal is published monthly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$12.00. Nonmember subscriptions available; prices obtainable on request. Second-class postage paid at New York, N.Y. and at additional mailing offices. GT, HY.

The Society is not responsible for any statement made or opinion expressed in its publications.

Wind Induced Flow of Water in Network <i>by Lambertus Lijklema and Gerrit van Straten</i>	104
Theoretical Estimations of Flood Routing Parameters <i>by Antonis D. Koussis</i>	109

DISCUSSION

Proc. Paper 13450

Finite Element Solution of Saint-Venant Equations , by Richard L. Cooley and Syed Afaq Moin (June, 1976. Prior Discussions: Jan., May, 1977). <i>closure</i>	119
Water Hammer in PVC and Reinforced Plastic Pipe , by Gary Z. Watters, Roland W. Jeppson, and Gordon H. Flammer (July, 1976. Prior Discussion: June, 1977). <i>closure</i>	121
Minimum Unit Stream Power and Fluvial Hydraulics , by Chih Ted Yang (July, 1976. Prior Discussion: July, 1977). <i>closure</i>	122
Experimental Investigation of Flow over Side Weirs , by Ahmed El-Khashab and Kenneth V. H. Smith (Sept., 1976. Prior Discussions: May, Aug., Sept., 1977). <i>closure</i>	126
Flow in Corrugated Pipes , by Robert J. Shipton and Harold R. Graze (Sept., 1976. Prior Discussions: May, Aug., 1977). <i>closure</i>	128
Convective Model of Longitudinal Dispersion , by Raul S. McQuivey and Thomas N. Keefer (Oct., 1976. Prior Discussions: July, Aug., 1977). <i>closure</i>	129
Computer Modeling of Erodible Flood Channels and Deltas,* by Howard H. Chang and Joseph C. Hill (Oct., 1976. Prior Discussions: June, Oct., 1977). <i>by Alton L. Ruden</i>	132

*Discussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.

Runoff Files for Flood Hydrograph Simulation , by Alan M. Lumb and L. Douglas James (Oct., 1976. Prior Discussion: July, 1977). <i>closure</i>	134
Effect of Temperature on Channel Resistance , ^a by M. Mokhles Abou-Seida and Fawzy Arafa (Mar., 1977). <i>by Nazeer Ahmed</i>	135
Experimental Study of Wind Effects on Reaeration , ^a by George E. Mattingly (Mar., 1977. Prior Discussion: Dec., 1977). <i>by Jade Dattatri, Harihara Raman, and Nilakantan Jothi Shankar</i> . . .	137
On the Determination of Ripple Length , ^a by Mehmet Selim Yalin (Apr., 1977). <i>by Timothy R. H. Davies</i>	139

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
