

CONTENTS

Finite Element Analysis of Metal Deck Shear Diaphragms <i>by Arthur H. Nilson and Albert R. Ammar</i>	711
Welded Connections under Combined Shear and Moment <i>by John L. Dawe and Geoffrey L. Kulak</i>	727
Nonlinear Dynamic Analysis of Frames with Filler Panels <i>by Garrison Kost, William Weaver, Jr., and Russell B. Barber</i>	743
Lateral Analysis of Plywood Diaphragms <i>by Warren H. Bower</i>	759
Human Perception of Transient Vibrations <i>by John F. Wiss and Richard A. Parmelee</i>	773
Torsional Analysis of Box-Girder Suspension Bridges <i>by H. Max Irvine</i>	789

DISCUSSION

Proc. Paper 10442

Experimental Studies of Membrane Shear Transfer , by Richard N. White and Myle J. Holley (Aug., 1972. Prior Discussion: July, 1973). <i>closure</i>	815

This Journal is published monthly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$10.00. Nonmember subscriptions available; prices obtainable on request. Second-class postage paid at New York, N.Y. and at additional mailing offices. ST.

The Society is not responsible for any statement made or opinion expressed in its publications.

Ultimate Design of Hollow Thin-Walled Box Girders , by Dennis H. Parr and Samuel P. Maggard (July, 1972. Prior Discussion: July, 1973).	
<i>closure</i>	816
Cost Optimization of Welded Plate Girders , by Natarajan Annamalai, Albert D. M. Lewis, and John E. Goldberg (Oct., 1972. Prior Discussion: Sept. 1973).	
<i>closure</i>	819
Structure-Foundation Interaction Analysis , by Ian K. Lee and Peter T. Brown (Nov., 1972. Prior Discussion: Sept., 1973).	
<i>closure</i>	820
Fire Resistance of Unprotected Steel Columns,^a by W. W. Stanzak and T. T. Lie (May, 1973).	
<i>by C. M. Kamath</i>	821
The Shear Strength of Reinforced Concrete Members , by the Joint ASCE-ACI Task Committee 426 on Shear and Diagonal Tension of the Committee on Masonry and Reinforced Concrete of the Structural Division (June, 1973).	
<i>errata</i>	821
Finite Element for Reinforced Concrete Frame Study,^a by Wayne C. Kroenke, Martin J. Gutzwiller, and Robert H. Lee (July, 1973).	
<i>by William P. Dawkins</i>	822
How Safe Are Your Poles?^a by Joseph R. Arena (July, 1973).	
<i>by John B. Scalzi</i>	824
Evaluation of Computer Charging Policies,^a by Daniel Roos (July, 1973)	
<i>by H. Kardestuncer</i>	826
Tests of Concrete Columns in Torsion,^a by Ganpat S. Pandit and Manak B. Mawal (July, 1973).	
<i>by H. T. Solanki</i>	827
Solution of Linear Equations—State-of-the-Art,^a by Christian Meyer (July, 1973).	
<i>by Anil K. Kar</i>	828

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.

Deck-Stiffened Arch Bridges of Robert Maillart,^a by David P. Billington
(July, 1973).

by <i>Thomas C. Kavanagh</i>	829
by <i>Thomas R. Kuesel</i>	832

TECHNICAL NOTES

Proc. Paper 10456

Transverse Elastic Buckling of Plane Pipe Gridworks

by <i>Alan I. Soler and Hooshang Afshari</i>	837
--	-----

Empirical Frequency Analysis of Bridge Deck Slabs

by <i>Simon F. Ng and Garnesh G. Kulkarni</i>	842
---	-----

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
