

PERMISSION TO PHOTOCOPY JOURNAL PAPERS

Permission to photocopy for personal or internal reference beyond the limits in Sections 107 and 108 of the U.S. Copyright Law is granted by the American Society of Civil Engineers for libraries and other users registered with the Copyright Clearance Center, 21 Congress Street, Salem, Mass. 01970, provided the appropriate fee is paid to the CCC for all articles bearing the CCC code. Requests for special permission or bulk copying should be addressed to the Manager of Technical and Professional Publications, American Society of Civil Engineers.

CONTENTS

**Foreword to Fatigue and Fracture Reliability:
A State-of-the-Art Review** 3

Fatigue Reliability: Introduction
*by The Committee on Fatigue and Fracture Reliability
of the Committee on Structural Safety and Reliability
of the Structural Division* 25

Fatigue Reliability: Quality Assurance and Maintainability
*by The Committee on Fatigue and Fracture Reliability
of the Committee on Structural Safety and Reliability
of the Structural Division* 47

Fatigue Reliability: Variable Amplitude Loading
*by The Committee on Fatigue and Fracture Reliability
of the Committee on Structural Safety and Reliability
of the Structural Division* 71

The Journal of the Structural Division (ISSN 0044-8001) is published monthly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$25.00. Nonmember subscriptions available; prices obtainable on request. Second-class postage paid at New York, N.Y. and at additional mailing offices. ST.

POSTMASTER: Send address changes to American Society of Civil Engineers, 345 East 47th Street, New York, NY 10017.

The Society is not responsible for any statement made or opinion expressed in its publications.

Fatigue Reliability: Development of Criteria for Design <i>by The Committee on Fatigue and Fracture Reliability of the Committee on Structural Safety and Reliability of the Structural Division</i>	89
Structural Response of Skew RC Box Girder Bridge <i>by Alexander C. Scordelis, S. Tanvir Wasti, and Frieder Seible</i>	105
Ultimate Strength of Skew RC Box Girder Bridge <i>by Alexander C. Scordelis, Jack G. Bouwkamp, S. Tanvir Wasti and Frieder Seible</i>	125
Fatigue of Two Year Weathered A588 Stiffeners and Attachments <i>by Ian M. Friedland, Pedro Albrecht, and George R. Irwin</i>	145
Tests of Composite Beams with Web Openings <i>by William C. Clawson and David Darwin</i>	163
Bridge Rehabilitation: An Alternate Approach <i>by John M. Yadlosky, Robert J. Brungraber, and Jai B. Kim</i>	177
External Pressure and Sectional Behavior of Fabricated Tubes <i>by Shouji Toma, Wai F. Chen, and Lyle D. Finn</i>	195
In-Plane Stability of Parabolic Arches <i>by Howard B. Harrison</i>	207
Cracks in Concrete Subject to Shear <i>by Hans W. Reinhardt and Joost C. Walraven</i>	225
Alongwind Response Estimation: Closed Form Solution <i>by Giovanni Solari</i>	245
Uniform Element Modeling of Tapered Frame Members <i>by Eryk Kosko</i>	265
Performance of Cable Trusses under Static Loads <i>by Prem Krishna, Vijaya K. Gupta, Ashok K. Ahuja, and Ashok K. Mittal</i>	283
Lapped Tensile Reinforcement Splices <i>by Ralejs Tefpers</i>	305

DISCUSSION

Proc. Paper 16775

Forced Vibrations of Cable Networks , by Louis F. Geschwindner and Harry H. West (Sept., 1980). <i>errata</i>	307
Snap-Through Buckling of Reticulated Space Trusses , ^a by Heinrich Rotherth, Timm Dickel, and Detlef Renner (Jan., 1981). <i>by M. A. Crisfield</i>	307
Elastic-Plastic Large Displacement of Pipes , ^a by A. F. Saleeb and W. F. Chen (Apr., 1981). <i>by Pranab K. Ghosh</i>	309

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
