This Journal is published aperiodically by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$4.00. Nonmember subscriptions available; prices obtainable on request. PO, SU, TC, UP, WR.

The most recent issues of this journal were published in May 1975, November 1975, and August 1976.

The Society is not responsible for any statement made or opinion expressed in its publications.

Maintaining Water Quality in Voyageurs National Park <i>by William H. Anderl</i>	117
Reclamation of Open-Pit Quarries for Multiple Uses <i>by Richard W. Karn</i>	127

DISCUSSION

Proc. Paper 13030

Economic Analysis of Residential Land-Use Alternatives,^a by David C. Curtis and Richard H. McCuen (Nov., 1975). <i>by Richard W. Lyles</i>	139
<i>closure</i>	140

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
