This Journal is published monthly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$8.00. Nonmember subscriptions available; prices obtainable on request. Second-class postage paid at New York, N.Y. and at additional mailing offices. HY, GT.

The Society is not responsible for any statement made or opinion expressed in its publications.

DISCUSSION

Proc. Paper 10634

Coefficient of Secondary Compression, by Gholamreza Mesri (Jan., 1973. Prior Discussions: Aug., 1973, Nov., 1973).
closure863

Effect of Seepage Stream on Artificial Soil Freezing, by Hadi T. Hashemi and Cedomir M. Sliepcevich (Mar., 1973. Prior Discussion: Dec., 1973).
closure864

TECHNICAL NOTES

Proc. Paper 10641

Measuring Pile Deflections with Inclinator
by Jai B. Kim and Robert J. Brungraber867

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 x 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.
