

CONTENTS

Seismic Instrumentation of Dams <i>by Bruce A. Bolt and Donald E. Hudson</i>	1095
End Effects on Stability of Cohesive Slopes <i>by Mohsen M. Baligh and Amr S. Azzouz</i>	1105
Quasi-Static Deep Penetration in Clays <i>by Mohsen M. Baligh and Ronald F. Scott</i>	1119
Statistics of Liquefaction and SPT Results <i>by John T. Christian and William F. Swiger</i>	1135
Strength of One Dimensionally Consolidated Clays <i>by Adel S. Saada and Gary F. Bianchini</i>	1151

DISCUSSION

Proc. Paper 11674

Planning and Performing Compaction Grouting , by James Warner and Douglas R. Brown (June, 1974. Prior Discussions: Feb., Apr., 1975). <i>closure</i>	1167
Behavior of Bored Piles in Sand , by Fadlo T. Touma and Lymon C. Reese (July, 1974. Prior Discussion: May, 1975). <i>closure</i>	1169

This Journal is published monthly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$10.00. Nonmember subscriptions available; prices obtainable on request. Second-class postage paid at New York, N.Y. and at additional mailing offices. HY, GT.

The Society is not responsible for any statement made or opinion expressed in its publications.

New Design Procedure for Stability of Soft Clays , by Charles C. Ladd and Roger Foott (July, 1974. Prior Discussions: Jan., Apr., 1975). <i>closure</i>	1169
Embankments on Soft and Sensitive Clay Foundation , ^a by Oscar Dascal and Jean-Pierre Tournier (Mar., 1975). <i>by John B. Cox</i>	1173

TECHNICAL NOTES

Proc. Paper 11684

Finite Element Mesh Gradation for Surface Waves <i>by Genevieve Segol, John F. Abel, and Peter C. Y. Lee</i>	1177
Normalized Design Procedures in Sensitive Clays <i>by Dwight A. Sangrey</i>	1181
Buckling Capacity of Piles in Soft Clay <i>by Dindial V. Ramsamooj</i>	1187

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.

^aDiscussion period closed for this paper. Any other discussion received during this discussion period will be published in subsequent Journals.
