

CONTENTS

The papers in this issue were presented in Sessions 3 and 10 of the April 25-29, 1977, ASCE Spring Convention, held at Dallas, Texas. These sessions were held under the auspices of the ASCE National Energy Policy Committee, Robert T. Jaske, Chairman and coordinated with the Coordinating Committee on Energy.

Role of the Coordinating Committee on Energy <i>by Robert T. Jaske</i>	1
Electric Energy Supply into 21st Century: Challenges and Changes <i>by Jack E. Gilleland</i>	7
Tomorrow's Energy: Power from Inner and Outer Space <i>by Jerry Grey</i>	17
Energy Engineering Education for 21st Century <i>by J. Narl Davidson and Lynn E. Weaver</i>	35
Energy—On Getting to the Turn of the Century <i>by Gerald L. Decker and Gerald T. Westbrook</i>	43
Mineral Resource Depletion at the Turn of the Century <i>by John J. Schanz, Jr.</i>	57
Centralization/Decentralization: Divergent Power Trends for 21st Century <i>by H. E. Bovay, Jr.</i>	65

This Journal is published aperiodically by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, N.Y. 10017. Address all ASCE correspondence to the Editorial and General Offices at 345 East 47th Street, New York, N.Y. 10017. Allow six weeks for change of address to become effective. Subscription price to members is \$4.00. Nonmember subscriptions available; prices obtainable on request. PO, SU, TC, UP, WR.

The most recent issues of this journal were published in July 1975, January 1976, November 1976, and July 1977.

The Society is not responsible for any statement made or opinion expressed in its publications.

Solar, Geothermal, Hydrogen, and Hydraulic Power <i>by Frederick F. Hall</i>	71
Power Conversion Systems of the 21st Century <i>by Arthur P. Fraas and Garland Samuels</i>	83
Generation Challenge—Luddington Pumped Storage <i>by Richard F. Gerkowski and John J. Dellas</i>	99

INFORMATION RETRIEVAL

The key words, abstract, and reference “cards” for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user’s file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.
