

# ASCE Proceedings Archive

ASCE Proceedings Archive provides an archival record of the knowledge exchange between researchers and practitioners at key civil engineering conferences around the world. These papers present state-of-the-art engineering methods and technologies and their applications across all areas of civil engineering, including sustainable development, infrastructure resilience, construction, structures, materials, transportation, geotechnics, environment, water resources, ports, and coasts.

## Major ASCE Conferences Include:

- Airfield and Highway Pavements
- Construction Research Congress
- Earth and Space
- Electrical Transmission and Substation Structures
- Forensic Engineering
- Geo-Congress
- International Low Impact Development Conference
- International Conference on Transportation and Development
- Pipelines
- Ports
- Structure Congress
- World Environmental and Water Resources Congress

- **Perpetual Access**
- **Years of Coverage: 2000-2024 (25-year archive)**
- **750 volumes. Browse proceedings volumes at <https://ascelibrary.org/proceedings>**
- **70,000 papers**

## How do I add titles in future years?

Libraries will be able to add future proceedings volumes through a one-time purchase (perpetual access) yearly add-on to their existing Proceedings Archive purchase.

## 2023 All Journals Discount Packages

The complete online collection comprises 35 ASCE Journals, including the English Edition of *Journal of Highway and Transportation Research and Development*, plus complimentary access to the digital archive for *Journal of Nanomechanics and Micromechanics* (2011–2017), *Leadership and Management in Engineering* (2001–2013), and new in 2023, the *ASCE OPEN: Multidisciplinary Journal of Civil Engineering* (our open access journal).

## Features and Benefits

- 35 Peer-reviewed journals
- 93,000 Technical papers
- Access backfile from 1983 to the present

**SPECIAL OFFER: All Journals package subscribers are eligible to order the ASCE Online Proceedings package and/or the ASCE Conference Video Collection at the discount price.**

## Highly Cited, Highly Respected, Highly Relevant

The ASCE Journals are the critical medium through which civil engineers publish their expertise and research, forming an archival record of the civil engineering profession. ASCE publishes 34 journals across many civil engineering disciplines.

**SPECIAL OFFER:** All Journals package subscribers are eligible to order the ASCE Online Proceedings package and/or the ASCE Conference Video Collection at the discount price.
