ASCE AMERICAN SOCIETY[®]
OF CIVIL ENGINEERS

Your Platform for the Latest Civil Engineering Research and Its Practical Application

ASCE Library delivers the most respected and richest collection of civil engineering content in the world. With 200,000 technical and professional articles, ASCE Library is the premier information clearinghouse for both researchers and practitioners in the field of civil engineering.

2023 Discount Online Subscriptions

Online Subscriptions	Discount Pricing	Coverage

Features & Benefits

- High Discoverability and Accessibility:**
Content is indexed in all major services including Google, Google Scholar, Baidu, Elsevier (Ei Compendex), Clarivate Analytics (Web of Science), ProQuest, Civil Engineering Database, TRID, OCLC (WorldCat), IET/INSPEC, Crossref, SCOPUS and EBSCOHost.
- No Restrictive DRM**
- Secure Archiving:**
ASCE's digital journal and e-book content is securely archived in Portico and CLOCKSS. The archival record includes the back issues of all ASCE journals and e-books currently hosted at ascelibrary.org
- Librarian Services:**
 1. COUNTER 5 compliant usage statistics
 2. IP address update
 3. Institution branding update
 4. Download MARC records
 5. Link resolver update
- Licensing:**
Multisite access is available (contact ascelibrary@asce.org)

New Developments for 2023

ASCE Conference Video Collection

ASCE will launch a new video platform on January 1, 2023 – the subscription expands ASCE's event offerings beyond traditional print proceedings papers and provides users with a multimedia conference experience. Your patrons can visually engage with early-stage research they may have missed, or revisit content they saw at an event. *Please see 2023 pricing on page 6.*

ASCE will launch a new video platform on January 1, 2023 – the subscription expands ASCE's event offerings beyond traditional print proceedings papers and provides users with a multimedia conference experience. Your patrons can visually engage with early-stage research they may have missed, or revisit content they saw at an event. *Please see 2023 pricing on page 6.*

Enhanced Full MARC Record Reports

Download book and journal XML MARC records from ASCE Library through an institution administration profile. Journal MARC records are available for current journal titles. Download either .mrc or .mrk book MARC records from <https://ascelibrary.org/page/kbartmarcandexcel> page. Reports are grouped by e-books, standards, proceedings, and journals. These MARC records are also available in OCLC/WorldCat.

Remote Access Options

- Proxy IP or VPN** – Any institution that uses IP addresses to authenticate users can use Proxy IPs (e.g. EZproxy) or VPN to authenticate remote users.
- Shibboleth and OpenAthens** – We support federated authentication for institutions.
- ASCE Library User Login** – Users who log in to their ASCE Library registered account from a campus IP address (including a proxy server or VPN) will be associated with their institution which enables off-campus access while logged in as an ASCE Library user.
- Universal CASA** – Users can affiliate with their institution when they access content from a campus IP address (including a proxy server or VPN), which then enables access to their library's ASCE holdings when using a device not connected to their institution's network.

Comprehensive Treatment of Everyday Engineering Challenges

ASCE E-books and Standards provide state-of-the-practice information and guidance on today's engineering methods and technologies, from design and planning through application in the field. Coverage encompasses all civil engineering content areas, including construction, structures, transportation, geotechnics, environment, water resources, and professional practice.

FEATURES & BENEFITS

- 550+ ASCE e-books and standards
- No restrictive DRM
- Chapter level metadata
- E-books are fully integrated with ASCE Journals and Proceedings on ASCE Library — ascelibrary.org
- Title, subject, and keyword searches across books and book chapters to quickly locate and download relevant content
- Downloadable MARC records from ascelibrary.org
- Single library administrator account to access COUNTER-5 usage statistics for ASCE e-books, standards, journals, and proceedings

Purchase Individual, Single E-book Titles from our Partners

You may also purchase ASCE e-books through our partners. (Note that title availability and accessibility features will vary among partners.) Purchase of the collection is only available directly from ASCE. Our partners include: American National Standards Institute, ProQuest Ebook Central, EBSCOHOST, IHS, Knovel, Madcad.com, SAI Global, and Techstreet.

ACCESS OPTIONS

OPTION 1: One-time Purchase, Perpetual Access — single-site

2023 Rate: \$18,950 (current year + backlist)

Provides perpetual access to all current-year titles, plus perpetual access to our backlist of more than 550 e-books and standards.

You will have the option to expand your collection by purchasing new annual collections each year. View title backlist online at

<https://ascelibrary.org/page/ebookrates>

OPTION 2: Annual Subscription — single-site

2023 Rate: \$6,200 (current year + backlist)

Provides 12-month (January–December calendar-year) leased online access to all current-year ASCE e-book titles, plus

leased online access to the complete backlist of more than 550 e-books and standards.

OPTION 3: One-Time Purchase, Perpetual Access — single-site

2023 Rate: \$2,790 (current year)

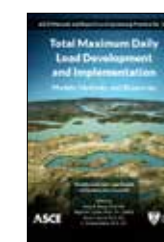

Provides perpetual access to all current-year titles.

Highly Cited, Highly Respected, Highly Relevant

The **ASCE Journals and Periodicals** package is the critical medium through which civil engineers publish their expertise and research, forming an archival record of the civil engineering profession.

2023 All Journals Discount Packages

The complete online collection comprises all 35 ASCE Journals listed below, plus complimentary access to the digital archive for *Journal of Nanomechanics and Micromechanics* (2011–2017), *Leadership and Management in Engineering* (2001–2013), and new in 2023, the *ASCE Open: Multidisciplinary Journal of Civil Engineering* (our open access journal).

ISSUES/YEAR: 258 • FREQUENCY: Monthly
2023 Volume 149 • YEAR ESTABLISHED: 1875

SPECIAL OFFER: All Journals package subscribers are eligible to order the **ASCE Online Proceedings** package at the discount price of **\$1,725** (list \$2,800), or the **ASCE Conference Video Collection** at the discount price of **\$2,030** (list \$2,900). See page 6.

Practical Solutions to Real-World Civil Engineering Problems

ASCE Online Proceedings package provides comprehensive coverage of the latest technologies presented at key conferences around the world, keeping your patrons abreast of advances in the field.

ACCESS

- 660+ Proceedings titles
- 68,000 Technical papers
- Access backfile from 2000 to the present

2023 RATES

\$1,725
(Special price for All Journals subscribers)
 List \$2,800

New for 2023

ASCE Conference Video Collection

Visually engage with early-stage research

In an increasingly digital world, the **ASCE Conference Video Collection** enables ASCE to respond to the changing nature of content consumption and conference attendance. Session videos and posters specific to ASCE proceedings papers will be linked for ease of use from either the ASCE Library or the Conference Video Collection, allowing users to benefit from both media and access the latest engineering research to advance the civil engineering profession.

This video collection is available as a separate subscription with special discount pricing for existing ALL Journals or Proceedings subscribers. Product launches on January 1, 2023.

COVERAGE INCLUDES ALL SUBJECTS

- Aerospace engineering
- Architectural engineering
- Bridge engineering
- Civil engineering profession
- Coastal engineering
- Cold regions
- Computing in civil engineering
- Construction engineering
- Disasters
- Energy engineering
- Engineering mechanics
- Environmental engineering
- Forensic engineering
- Geotechnics
- History and heritage
- Infrastructure management and security
- Lifeline systems
- Materials
- Ocean engineering
- Pavements
- Pipelines
- Ports and harbors
- Risk management
- Structural engineering
- Sustainable development
- Transportation engineering
- Tunnels and underground construction
- Urban planning and development
- Water and water resources
- Waterways

For a complete list of ASCE Proceedings titles, visit ascelibrary.org/page/librarians

Features and Benefits:

- Cost-effective way to introduce researchers, practitioners, faculty, and students to technical developments in the field when conference attendance is not an option
- Full multimedia conference experience expanding beyond traditional print proceedings papers
- Increase engagement with cutting-edge technical content presented at key technical conferences
- Improve the learning experience for a wide audience with different learning styles
- Integrates with author/speaker's ORCID profile

Package Includes:

- 600 videos to be published annually.
- Select conferences include EWRI, ICTD, Earth & Space, ASCE Annual Convention and V-Tech, LID.
- 1,000+ archive videos from 2020 and 2021 conferences. Note: no videos to be published from 2022 conferences.

2023 RATES

\$2,030
(Special price for All Journals or Proceedings subscribers)
 List \$2,900

Unlocking More than a Century of Landmark Civil Engineering Excellence

The **ASCE Legacy Journals Archive** provides perpetual access to more than a century of groundbreaking civil engineering research. The collection offers faculty and students an unprecedented gateway to the works of influential engineers, landmark civil engineering projects, and the foundations of America’s infrastructure. These seminal papers form the basis of modern practice.

Features and Benefits

- Perpetual access to 125 years of newly digitized content
- Complete coverage of ASCE Journals from 1872 to 1996
- More than 50,000 technical articles available in searchable PDF format
- 21 Journal Titles included
- 450,000 pages, including images, illustrations, and charts in high-quality scans

- Legacy content is cited over 27,000 times in the current All ASCE Journals Subscription
- Seamlessly integrated with ASCE Journals on the ASCE Library platform
- Save time and expenses—the Archive offers the most efficient and cost effective means of accessing the most highly-cited technical content throughout history

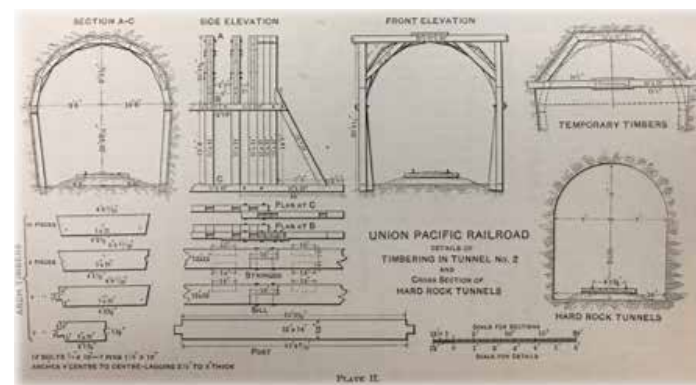

Package Includes Perpetual Access to:

- Transactions: 1872 to 1963 – Precursor to ASCE Journals
- 21 ASCE Journals from 1956 to 1996

Civil Engineering Magazine Online <https://ascelibrary.org/journal/ciegap>

In-depth articles explore today’s pivotal civil engineering projects, events, and professional issues of interest to civil engineers – including thought-provoking columns on legal matters, technology, and ethics. The Magazine forms a record of civil engineering achievements and innovation published by the world’s largest civil engineering society. The online and print+online subscriptions include access to the current year plus the archive from 2005 to the present.

2023 SUBSCRIPTION RATE

\$348 Online

(Print options are available. See print pricing on page 8.)

ONE-TIME PURCHASE, PERPETUAL ACCESS

\$1,492

One-time purchase includes access to 2023 plus the back file from 2005 to the present.

GEOSTRATA Online <https://ascelibrary.org/journal/geosek>

Access current issues affecting the practice of geotechnical engineering. Focusing on geotechnical projects that use unique techniques and innovative processes, the magazine provides the everyday, real world details that geotechnical professionals need to know.

2023 SUBSCRIPTION RATE

\$348 Online

Includes access to backfile from 2016 to the present.

Features and Benefits

- Gain insights into innovative solutions to difficult challenges faced by civil engineers
- Well-illustrated with color photographs, drawings, and figures
- Fully integrated with ASCE Journals, Proceedings, E-books, and Standards on the ASCE Library platform (ascelibrary.org)
- COUNTER-5 compliant usage statistics

Back Issues

ASCE has complete sets of print volumes from 2004 to the present, available for purchase at the current print subscription rates for each journal. To order, please contact us at 1-800-548-2723 or 1-703-295-6300, or e-mail ascelibrary@asce.org.

Subscription Information

ASCE Subscription Policy

- All subscriptions must be prepaid.
- Subscriptions are accepted on a one-year basis only. Multiple-year subscriptions will not be accepted. If previous annual volumes of the journals are requested, they will be charged at the current 2023 subscription price.
- All journal subscriptions are entered on a calendar-year basis. Service begins upon receiving a paid order. Back issues for the current year will be sent on late subscriptions. *Civil Engineering* subscriptions are entered on a random-expire basis — except for *Civil Engineering Magazine Archive* which is calendar year — and begin upon receipt of a paid order.
- There are no agency or library discounts given on subscriptions.
- Online subscription access requires both an online subscription payment and a signed User Agreement. You must register at <https://ascelibrary.org/page/subscribe-to-ascelibrary-packages> to complete the online User License Agreement.
- Domestic rates apply only to the U.S. and possessions. International rates apply to all other countries. For journals and *Civil Engineering* magazine being shipped to international destinations, air delivery service is included in the international rate price.
- Requests for cancellation made after an order has been processed and service has begun are subject to a service charge. A credit or refund will be given on the unserved portion of the subscription.
- Missing-issue requests will be honored only if received within three months (domestic) and five months (international) of the publication date.
- Prices are subject to change without notice.

Satisfaction Guarantee

ASCE proudly stands behind the publications we offer. If at any time you are not completely satisfied with your journal subscription, you may choose to cancel it and receive a credit or refund on the unserved portion of the subscription. Cancellations on orders that have been processed and where service has begun will receive a prorated refund.

Archive Policy

ASCE is committed to the long-term preservation of its digital journal content and has arranged for secure archiving with Portico and CLOCKSS to ensure that ASCE Journals are preserved and available for future scholars, researchers, and students. The archival record will include the back issues of all ASCE Journals currently available at ascelibrary.org.

Post-Cancellation Policy: Institutions may request post-cancellation electronic files on DVD with subscriptions to ALL ASCE Journals Online for a nominal fee for the period during which an online subscription was held. The same usage rights as for active subscribers apply to use of the DVD archive copy. Upon lapse of an online subscription, no additional online service is provided. Note: The physical archive copy will not contain linking and other features inherent in the online version of the journal available to active subscribers.

Usage Rights for Online Products

Usage rights of active institutional subscribers will be governed by the terms of the current Institutional User License Agreement, a signed copy of which must be submitted to ASCE. Email ascelibrary@asce.org for a copy of the agreement.

Author Services

<https://ascelibrary.org/page/authors>

SUBMISSION TRANSFER FEATURE

With our new submission transfer feature, authors will have the choice to directly transfer their paper to the journal suggested by the editor. In the past, authors were forced to go through the submission from scratch. In the past, authors had to manually resubmit all files to the next journal. This new feature automates the process, and authors will only need to approve the submission for it to be presented for review in the suggested journal. Authors will spend significantly less time submitting their transferred papers, and editors will benefit from faster, more seamless transfer of papers from other ASCE journals – all of which will contribute to the timely review and publication of civil engineering research.

LANGUAGE EDITING AND TRANSLATION SERVICES

ASCE has partnered with Editage to provide specialized English editing and translation services for ASCE authors. Benefit from their expert guidance to assist you in every step of your academic journey. Learn more at <https://authorservices.ascelibrary.org>.

OVERLEAF WRITING TOOL

ASCE partnered with Overleaf to create an ASCE Template that allows authors to easily prepare and edit their manuscripts. Once complete, authors can submit the source files downloaded from Overleaf. While primarily a LaTeX tool, the Overleaf template has a toggle feature between the LaTeX source and a Rich Text editor, enabling LaTeX authors to work collaboratively with authors not using LaTeX. Using the basic template is free.

ORCID AUTHOR IDENTIFIER

ORCID provides a persistent digital identifier ensuring that you get credit for the work you have done. Authors are encouraged to provide

an ORCID or register for an ORCID during the manuscript submission process. Authenticated ORCIDs provided at submission will be published alongside author names allowing readers to access public profile information.

ASCE OPEN ACCESS

ASCE Open Access allows authors to make their published papers available without a subscription on ASCE Library. Authors who wish to pay the ASCE Open Access fee will retain copyright as the paper will publish under the Creative Commons Attribution Only (CC-BY) license.

GREEN OPEN ACCESS

Public access funding mandates are not a problem as ASCE journals are Green Open Access compliant for all current funding mandates. Gold OA requirements can be met with the ASCE Open Access option.

OPEN FUNDER REGISTRY

Open Funder Registry provides a standard way to report funding sources for published scholarly research using a taxonomy of funder names and ensuring that funding information is properly displayed on published articles. ASCE uses this taxonomy to standardize your funders for maximum transparency.

RE-USE PERMISSION THROUGH RIGHTSLINK

RightsLink makes it easy to get permission to re-use ASCE materials in your paper. Additionally, ASCE is a signatory of the STM Permissions Guidelines allowing the re-use of small amounts of materials without having to pay a permission fee.

7 Reasons to PUBLISH with ASCE

- 1. AUTHORITY**
ASCE is the world leader in civil engineering knowledge.
- 2. IN DEMAND**
ASCE Library contains more than 200,000 articles and attracts over a million visits per month.
- 3. AVAILABLE 24/7**
Research and practical solutions are available 24/7 through ascelibrary.org and cedb.asce.org.
- 4. PRODUCTION VALUE**
Ensuring accuracy via thorough copyediting, state-of-the-art composition processes, and adherence to production best practices. Competitive turnaround times ensure readers get the latest research quickly.
- 5. LED BY EXPERTS IN THE FIELD**
ASCE journals and proceedings are led by experienced researchers and practitioners attracting high-quality papers.
- 6. HIGH DISCOVERABILITY**
Content is indexed in all major services including Google Scholar, Baidu, Elsevier (Ei Compendex), Clarivate Analytics (Web of Science), ProQuest, Emerging Sources Citation Index (ESCI), TRID, OCLC (WorldCat), IET/INSPEC, Crossref, SCOPUS and EBSCOHost.
- 7. SUBMISSION TRANSFER**
Find the right journal for your work. When you submit your research, you can now opt-in for seamless submission transfer to another ASCE journal.
