**ASCE** AMERICAN SOCIETY<sup>®</sup>  
OF CIVIL ENGINEERS

## Your Platform for the Latest Civil Engineering Research and Its Practical Application

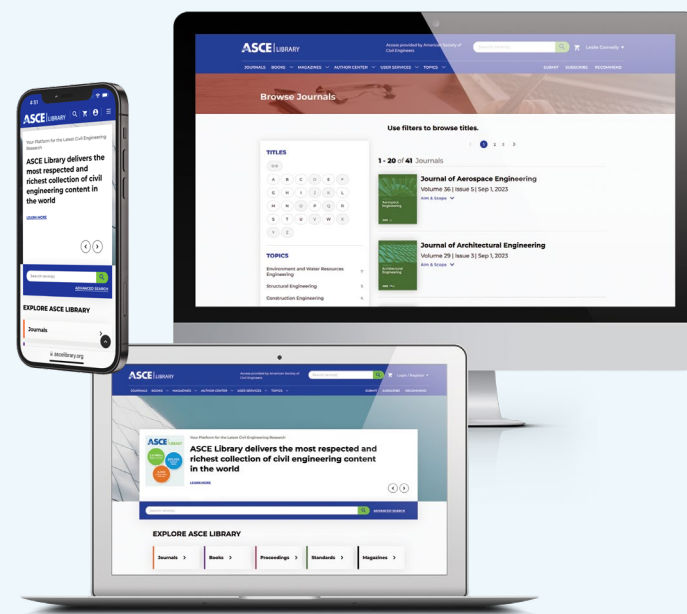

ASCE Library delivers the most respected and richest collection of civil engineering content in the world. With 200,000 technical and professional articles, ASCE Library is the premier information clearinghouse for both researchers and practitioners in the field of civil engineering.

### Features & Benefits

- High Discoverability and Accessibility:** Content is indexed in all major services including Google, Google Scholar, Baidu, Elsevier (Ei Compendex), Clarivate Analytics (Web of Science), ProQuest, Civil Engineering Database, TRID, OCLC (WorldCat), IET/INSPEC, Crossref, SCOPUS and EBSCOHost.
- Secure Archiving:** ASCE's digital journal and e-book content is securely archived in Portico and CLOCKSS. The archival record includes the back issues of all ASCE journals and e-books currently hosted at [ascelibrary.org](https://ascelibrary.org)
- Librarian Services:**

  1. COUNTER 5 compliant usage statistics
  2. IP address update
  3. Institution branding update
  4. Download MARC records
  5. Link resolver update
- Licensing:** Multisite access is available (contact [ascelibrary@asce.org](mailto:ascelibrary@asce.org))

## New Developments for 2024

### NEW! ASCE Library Interface

ASCE is pleased to announce the launch of our redesigned ASCE Library platform. The site offers improved search functionality, hierarchical taxonomy, enhanced accessibility, and a new author center. Learn more at <https://ascelibrary.org>.

### NEW! ASCE Conference Video Collection

This new subscription expands ASCE's event offerings beyond traditional print proceedings papers and provides users with a multimedia conference experience. Your patrons can visually engage with early-stage research they may have missed, or revisit content they saw at an event. Please see 2024 pricing on page 6.

### NEW! ASCE's First Fully Open Access Journal

*ASCE OPEN: Multidisciplinary Journal of Civil Engineering* is ASCE's first Gold Open Access Journal. This multidisciplinary journal presents an all-encompassing civil engineering perspective on the built and natural environment. Learn more at <https://ascelibrary.org/journal/aomjah>.

### Remote Access Options

- Proxy IP or VPN** – Any institution that uses IP addresses to authenticate users can use Proxy IPs (e.g. EZproxy) or VPN to authenticate remote users.
- Shibboleth and OpenAthens** – We support federated authentication for institutions affiliated with one of the many Federations around the world.
- ASCE Library User Login** – Users who log in to their ASCE Library registered account from a campus IP address (including a proxy server or VPN) will be associated with their institution which enables off-campus access while logged in as an ASCE Library user.
- Universal CASA** – Users can affiliate with their institution when they access content from a campus IP address (including a proxy server or VPN), which then enables access to their library's ASCE holdings when using a device not connected to their institution's network.

## Comprehensive Treatment of Everyday Engineering Challenges

ASCE E-books and Standards provide state-of-the-practice information and guidance on today's engineering methods and technologies, from design and planning through application in the field. Coverage encompasses all civil engineering content areas, including construction, structures, transportation, geotechnics, environment, water resources, and professional practice.

### ACCESS

550+ E-books and Standards

### 2024 RATES

**\$19,300**

\$48,668 value

(One-time purchase, current year + backlist)

**\$6,386**

## FEATURES & BENEFITS

- 550+ ASCE e-books and standards
- Chapter level metadata
- E-books are fully integrated with ASCE Journals and Proceedings on ASCE Library — [ascelibrary.org](https://ascelibrary.org)
- Title, subject, and keyword searches across books and book chapters to quickly locate and download relevant content
- Downloadable MARC records from [ascelibrary.org](https://ascelibrary.org)
- Single library administrator account to access COUNTER-5 usage statistics for ASCE e-books, standards, journals, and proceedings

### Purchase Individual, Single E-book Titles from our Partners

You may also purchase ASCE e-books through our partners. (Note that title availability and accessibility features will vary among partners.) Purchase of the collection is only available directly from ASCE. Our partners include: American National Standards Institute, ProQuest Ebook Central, EBSCOHOST, Accuris, Knovel, Madcad.com, SAI Global, and Techstreet.

## ACCESS OPTIONS

### OPTION 1: One-time Purchase, Perpetual Access — single-site

**2024 Rate: \$19,300** (current year + backlist)

Provides perpetual access to all current-year titles, plus perpetual access to our backlist of more than 550 e-books and standards. You will have the option to expand your collection by purchasing new annual collections each year. View title backlist online at <https://ascelibrary.org/page/ebookrates>

### OPTION 2: Annual Subscription — single-site

**2024 Rate: \$6,386** (current year + backlist)

Provides 12-month (January–December calendar-year) leased online access to all current-year ASCE e-book titles, plus leased online access to the complete backlist of more than 550 e-books and standards.

### OPTION 3: One-Time Purchase, Perpetual Access — single-site

**2024 Rate: \$2,790** (current year)

Provides perpetual access to all current-year titles.

Looking to fill a gap in your ASCE collection? Contact [ascelibrary@asce.org](mailto:ascelibrary@asce.org) to request a quote for other years.

## ASCE Conference Video Collection

Visually engage with early-stage research

Content consumption and conference attendance are changing. Gone are the limitations of geographical barriers and the constraints of physical attendance. With the **ASCE Conference Video Collection**, your users can easily access content and participate in conferences in a way that suits their preferences and schedule. This dynamic platform has a diverse array of high-quality session videos and posters encompassing all civil engineering sub-disciplines within ASCE's technical conferences.

Videos and posters specific to ASCE proceedings papers will be linked for ease of use from either the ASCE Library or the Conference Video Collection, allowing users to benefit from both media and access the latest engineering research to advance the civil engineering profession. This video collection is available as a separate subscription with special discount pricing for existing ALL Journals or Proceedings subscribers. Please see 2024 pricing on page 8.

#### Features and Benefits:

- Cost-effective way to introduce researchers, practitioners, faculty, and students to technical developments in the field when conference attendance is not an option
- Full multimedia conference experience expanding beyond traditional print proceedings papers
- Increase engagement with cutting-edge technical content presented at key technical conferences
- Improve the learning experience for a wide audience with different learning styles
- Integrates with author/speaker's ORCID profile

For a full list of conferences visit <https://conferencevideo.asce.org>.

## Unlocking More than a Century of Landmark Civil Engineering Excellence

The **ASCE Legacy Journals Archive** provides perpetual access to more than a century of groundbreaking civil engineering research. The collection offers faculty and students an unprecedented gateway to the works of influential engineers, landmark civil engineering projects, and the foundations of America’s infrastructure. These seminal papers form the basis of modern practice.

### Features and Benefits

- Perpetual access to 125 years of newly digitized content
- Complete coverage of ASCE Journals from 1872 to 1996
- More than 50,000 technical articles available in searchable PDF format
- 21 Journal Titles included
- 450,000 pages, including images, illustrations, and charts in high-quality scans

- Legacy content is cited over 27,000 times in the current All ASCE Journals Subscription
- Seamlessly integrated with ASCE Journals on the ASCE Library platform
- Save time and expenses—the Archive offers the most efficient and cost effective means of accessing the most highly-cited technical content throughout history

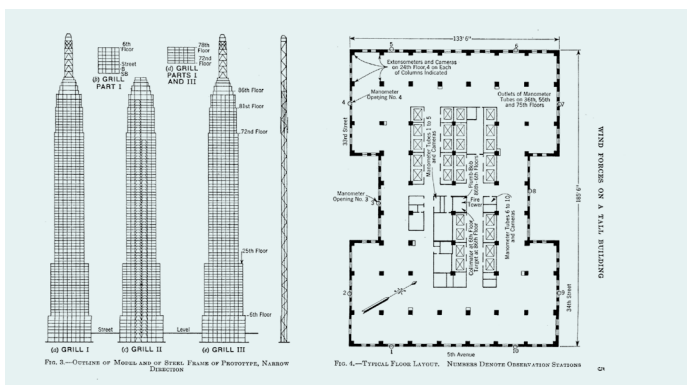

### Package Includes Perpetual Access to:

- Transactions: 1872 to 1963 – Precursor to ASCE Journals
- 21 ASCE Journals from 1956 to 1996

## Civil Engineering Magazine Online <https://ascelibrary.org/journal/cieag>

In-depth articles explore today’s pivotal civil engineering projects, events, and professional issues of interest to civil engineers – including thought-provoking columns on legal matters, technology, and ethics. The Magazine forms a record of civil engineering achievements and innovation published by the world’s largest civil engineering society. The online and print+online subscriptions include access to the current year plus the archive from 2005 to the present.

### 2024 SUBSCRIPTION RATE

**\$358 Online**

*(Print options are available. See print pricing on page 8.)*

### ONE-TIME PURCHASE, PERPETUAL ACCESS

**\$1,560**

One-time purchase includes access to 2024 plus the back file from 2005 to the present.

### ONE-TIME PURCHASE, CURRENT YEAR

**\$315**

## GEOSTRATA Online <https://ascelibrary.org/journal/geosek>

Access current issues affecting the practice of geotechnical engineering. Focusing on geotechnical projects that use unique techniques and innovative processes, the magazine provides the everyday, real world details that geotechnical professionals need to know.

### 2024 SUBSCRIPTION RATE

**\$358 Online**

Includes access to backfile from 2016 to the present.

### Features and Benefits

- Gain insights into innovative solutions to difficult challenges faced by civil engineers
- Well-illustrated with color photographs, drawings, and figures
- Fully integrated with ASCE Journals, Proceedings, E-books, and Standards on the ASCE Library platform ([ascelibrary.org](https://ascelibrary.org))
- COUNTER-5 compliant usage statistics

# Author Services

<https://ascelibrary.org/author-center>

## SUBMISSION TRANSFER FEATURE

With our new submission transfer feature, authors will have the choice to directly transfer their paper to the journal suggested by the editor. In the past, authors were forced to go through the submission from scratch. In the past, authors had to manually resubmit all files to the next journal. This new feature automates the process, and authors will only need to approve the submission for it to be presented for review in the suggested journal. Authors will spend significantly less time submitting their transferred papers, and editors will benefit from faster, more seamless transfer of papers from other ASCE journals – all of which will contribute to the timely review and publication of civil engineering research.

## LANGUAGE EDITING AND TRANSLATION SERVICES

ASCE has partnered with Editage to provide specialized English editing and translation services for ASCE authors. Benefit from their expert guidance to assist you in every step of your academic journey. Learn more at <https://authorservices.ascelibrary.org>.

## OVERLEAF WRITING TOOL

ASCE partnered with Overleaf to create an ASCE Template that allows authors to easily prepare and edit their manuscripts. Once complete, authors can submit the source files downloaded from Overleaf. While primarily a LaTeX tool, the Overleaf template has a toggle feature between the LaTeX source and a Rich Text editor, enabling LaTeX authors to work collaboratively with authors not using LaTeX. Using the basic template is free.

## ORCID AUTHOR IDENTIFIER

ORCID provides a persistent digital identifier ensuring that you get credit for the work you have done. Authors are encouraged to provide

an ORCID or register for an ORCID during the manuscript submission process. Authenticated ORCID's provided at submission will be published alongside author names allowing readers to access public profile information.

## ASCE OPEN ACCESS

ASCE Open Access allows authors to make their published papers available without a subscription on ASCE Library. Authors who wish to pay the ASCE Open Access fee will retain copyright as the paper will publish under the Creative Commons Attribution Only (CC-BY) license.

## GREEN OPEN ACCESS

Public access funding mandates are not a problem as ASCE journals are Green Open Access compliant for all current funding mandates. Gold OA requirements can be met with the ASCE OPEN Access option.

## OPEN FUNDER REGISTRY

Open Funder Registry provides a standard way to report funding sources for published scholarly research using a taxonomy of funder names and ensuring that funding information is properly displayed on published articles. ASCE uses this taxonomy to standardize your funders for maximum transparency.

## RE-USE PERMISSION THROUGH COPYRIGHT CLEARANCE CENTER

Copyright Clearance Center makes it easy to get permission to re-use ASCE materials in your paper. Additionally, ASCE is a signatory of the STM Permissions Guidelines allowing the re-use of small amounts of materials without having to pay a permission fee.

## 7 Reasons to PUBLISH with ASCE

- 1. AUTHORITY**  
ASCE is the world leader in civil engineering knowledge.
- 2. IN DEMAND**  
ASCE Library contains more than 200,000 articles and attracts over a million visits per month.
- 3. AVAILABLE 24/7**  
Research and practical solutions are available 24/7 through [ascelibrary.org](https://ascelibrary.org) and [cedb.asce.org](https://cedb.asce.org).
- 4. PRODUCTION VALUE**  
Ensuring accuracy via thorough copyediting, state-of-the-art composition processes, and adherence to production best practices. Competitive turnaround times ensure readers get the latest research quickly.
- 5. LED BY EXPERTS IN THE FIELD**  
ASCE journals and proceedings are led by experienced researchers and practitioners attracting high-quality papers.
- 6. HIGH DISCOVERABILITY**  
Content is indexed in all major services including Google Scholar, Baidu, Elsevier (Ei Compendex), Clarivate Analytics (Web of Science), ProQuest, Emerging Sources Citation Index (ESCI), TRID, OCLC (WorldCat), IET/INSPEC, Crossref, SCOPUS and EBSCOHost.
- 7. SUBMISSION TRANSFER**  
Find the right journal for your work. When you submit your research, you can now opt-in for seamless submission transfer to another ASCE journal.
